

# We need you as a **Sports Official**

## **Have you ever considered becoming an Elementary/High School sports official?**

- Educators' schedules are ideal for working games.
- As an official you control your schedule. You accept or decline games based on your availability.
- This is a great way to stay in shape. Instead of paying for a gym membership you get paid to exercise.
- You don't have to have any prior experience officiating. Training is available.
- You don't have to be a former "Super Star" athlete in the sport in order to officiate.
- This is a chance to stay connected to sports, earn some extra money, stay active and provide a positive experience for young people.

Please consider becoming a registered sports official. Without officials the kids can't play.
